IS JOHN EARLY A LEPER OR A MARTYR TO IGNORANCE? - JOHN EARLY SEATED IN HIS TENT ON THE OUTSKIRTS OF WASH-INGTON, HIS WIFE AND BABY.

(By Special Correspondent.)

Washington, D. C., June 5.—For over year John Early, his wife and baby have lived the lives of outcasts in the very heart of the country. Early had a varied career before he was condemned to the life of a leper under the direction of the Washington board. of health. He at one time worked in a pulp mill in North Carolina. Then he enlisted as a soldier and when discovered to be a leper, as the authorities then thought and still maintain, he was in the Salvation Army.

Early has never believed he had eprosy and though frequent examina- his forehead. tions have all been to the same effect he has never given up the hope that at some time he would be free from his solitary existence and be allowed to mingle with his fellow men,

Last Sunday night an eminent Nev York leper specialist, Dr. Bulkley, paid Early a visit privately and without the permission of the board of health, although a constant guard is maintained over Early. He gave Early a thorough examination and took a culture from the patient's forehead. Early has placed great confidence in the de cision of this eminent specialist, who while refusing to state definitely that he did not have leprosy until he should have tested the culture, still extended unusual hope to John Early. Dr. Fowler, who has charge of the contagious disease branch of the health department, is just as certain today as he was when Early was placed in quarantine, that the former Salvationist and soldier has leprosy but if he had not the disease, Dr. Fow-

ler asserted, he would only be too glad to have him released from his present abode. Both the health officer and Dr. Fowler think the specialist who took the culture found that Early had leprosy, believing that otherwise a favorable conclusion would port from the specialist was expected have been reported before today, the in the near future, and it was thought culture having been taken last Sun- he would probably pay Early another

Before going to the leper house, Dr. Early's house last Sunday, but upon reaching the house Early did not hesitate to say he had been visited and gave the name of the New York physician as the man who had paid the visit. Dr. Fowler admitted that he

disease. They were men who had

een cases of leprosy." Early was found in front of his house this morning when Dr. Fowler and a reporter called to see him. With him was Harry O. Brown, one of the three watchmen employed to prevent him from coming in contact they persons, while a short disly's family. Early did not hesitate to furnish the name of the specialist and o say that the latter was in his quarters long enough to make an examination of him and take a culture from

That Early believes he is not afand conversed with him.

"I believe," he said, "that the reddish brown splotches on me came from working in the pulp mill in North Carolina. There was a strong acid used there in powdered form and I believe it is responsible for all my troubles. I am satisfied it is not lep-

Asked about his condition, Early said he felt perfectly well, his only allment being a touch of malaria, which he attributed to the marshes and the damp so near his house. Mosquitoes were more than plentiful about his house last evening, and he thought they might carry disease. He had used no medicine since November, he said, adding that medicine given him when he was placed in quarantine up-set his stomach so much that he knew he could not ward off any disease.

He would not discuss the visit of that they were importers and interestithe specialist any more than to say he ed in low duty while the lowa senator was an eminent man in his profession. He felt that the result of the investigation would show he was not afflicted with leprosy. It was stated that a revisit soon.

Early works in his garden and about Fowler was inclined to discredit the the lawn, and also looks after his report of a specialist having been at chickens. A watchman is on duty quarantine, but he also contended, the distance from the water, where its allusion. evidences of leprosy are still there. occupant has a good view of the Ana-

Ogden Examiner Classified Department CAUSTIC SPEECH THE COLUMNS THAT BRING RESULTS--ONE CENT A WORD

Washington, June 5 .- Taking the floor, when Mr. Aldrich asked for an aye and no vote on cotton cloth schedule today, Senator Dolliver made the senatorial rafters ring with his denunciation of the speech made by the Rhode Island senator last night on that schedule.
"I desire to avoid any harsh criti-

cism of what has been done," he said in opening his remarks, "but I am not able to avoid a plain, straightforward statement of what this committee now asks the senate to do."
"Men are asked," continued Mr. Dol-

liver, "to cast their votes here, not upon testimony, but upon authority of a committee, and it becomes my duty to inquire into the sacredness of that substitute for facts and figures. Saying he had had no opportunity to read the speech of the senator from Rhode Island, Mr. Dolliver commented on the statement that "only ten pe cent of the cotton cloth schedule had

been changed.' Denying this by a counter state-ment, on the authority of Senator Smoot, that only 30 per cent were unchanged, he was quickly interrupted

by Mr. Aldrich.
"I said," interposed the senato from Rhode Island, "that less than 10 per cent of the total cotton importations, which amount in the aggregate to \$78,000,000 were affected by these

from Rhode Island on the tariff so that he could refer to his statistics 'm which he said he then had faith, which was gradually slipping away.

Mr. Aldrich arose to leave the cham

"I hope the senator will remain to flicted with leprosy was made plain to the reporter, who visited the camp the lowa senator in an appealing tone hear what I have to say," suggested "I had an engagement," sald Mr Aldrich smiling and hesitating.

"Well, you have an engagement here," retorted the Iowan. "I say you will not turn your back upon what I have to say without taking the moral consequences that will naturally arise in such a case,

Mr. Dolliver then exhibited a copy of a petition of merchants of New York which was a declaration against any increase of the tariff duties. Responding to a request by the senator from Rhode Island, Mr. Dolliver read the names of the merchants.
"Some of them are leading merchants of this country," responded Mr.

Dolliver. A cross-fire of criticism followed, Mr. Dolliver, Mr. Aldrich and Mr. Flint participating. It pertained to the interests of the signers of the petition,
Messrs. Aldrich and Flint contending

continued to urge their general reputation. "It's a strange thing," declared Mr. Dolliver, "to find the leaders of the Republican party reproaching the mergances which have grown up in conection with the protective tariff.

Referring to cartoons of himself the senate, he declared that since about the vicinity of his house at all that exhibition, others had adopted his hours, and persons who call are per- method of "reaching the intelligence of mitted to converse with him at a safe distance. Early never misses an opportunity to discuss religious matters with his callers, saying he believes lows senator spoke, his Massachusthought Early looked much better his mission on earth is to save souls etts colleague walked out of the chamthan he did when he was placed in and do good. His house is but a short ber without appearing to notice the

evidences of leprosy are still there.

"Early has been seen by several health officers since his arrival in camp," stated Dr. Early, "and they reported he had a typical case of the longer.

"Early has been seen by several costia river and freight tracks of the been increased in the pending bill over those of the Dinglew law, Mr. Dolliver read from a speech by Mr. Smoot. He said that Senator Smoot told the peosaid that Senator Smoot told the peo-ple that duties of the cotton schedule had been "equalized," but that the rates had not been lowered. Likewise the senator from Rhode Island had ome to the senate to say the rates

nad not been raised. Ridiculing the possibility of "equalizing" the duties without raising some or lowering others, Mr.Dolliver launch ed upon a comparison between the Dingley law and the Wisson bill. He commented on the Dingley law as in-terpreted by Mr. Aldrich and by the

"Then we have two Dingley laws?" interposed Mr. Tillman,

"Yes," responded the Iowan, "one on the statute books and one in the imagination of the senator from Rhode Island."

Mr. Dolliver ridiculed talk about average rates when some rates actually had been increased.

The "equalization" that had been affected, he said, had been leaving the rates up and bringing the lower ones nearer their level. Speaking of the need for accurate information, he said: "Senators cannot convert the sen-ate of the United States from a great deliberative body to an aggregation of

intellectual come-ons. Responding to side expressions of surprise by some senators, near him, he said: "That is a green goods proposition."

He spoke of various people who had dealings with the New York custom house, saying it had been suspected that they had "agents on the pay roll engaged in the administration of the customs laws." He declared "the Dingeey taw was

the Wilson law, plus a few amend-ments added by Governor Dingley in the house of representatives." The Dingley law, he declared, originated with Col. Tichener, and he said he had positive proof that the law never contemplated bringing cotton

mines," a loosely woven cloth. TAFT NOT COMING WEST.

Grand Junction, Colo., June 5.-President Taft will not attend the exercises incident to the opening of the Gunnison Irrigation tunnel early in August and probably will not make his contemplated trip to the west this summer, according to a telegram re-ceived here yesterday. This informa-tion was received by the committee in charge of arrangements for the Gunnison celebration and stated that President Taft probably would not make the trip west on accounts of Mrs. Taft's health.
